

Comments by Head of Department

Levente is a sympathetic and bright individual. He is kind and has shown extra effort in helping the technicians with setups and sound checks also with technically replacing and tuning the set instantaneously when asked for (during late hours and times of pressure). As a musician, he is incredibly sensitive and knows how to support / merge the band. He is on time, aware of musical development and prepared for all fills that seem to come naturally. His rhythm is paramount and the fills bring excitement. Levente is a wonderful team player, intuitive, open to new ideas and we are lucky to have him on board.
